By water meter and as filed by Annual Notice of Groundwater and Extraction with the State Water Resources Control Board under Primary Owner: Etchart Ranch (Recordation Number: G560981). This well is shared with a neighbor.

**DISCLOSURE NO. 3:**

The type of water right or rights claimed by the party for the extraction of groundwater.

**RESPONSE TO DISCLOSURE NO. 3:**

Etchart is an overlying landowner and asserts both overlying and unexercised water rights for the extraction of groundwater from a shallow alluvial well he co-owns with another landowner overlying the Upper Ventura Groundwater Basin.

1 Etchart also asserts a right to use groundwater under the self-help doctrine, if prescriptive  
2 rights to extract groundwater from the basin are determined.

3  
4 **DISCLOSURE NO. 4:**

5 A general description of the purpose to which the groundwater has been put.

6 **RESPONSE TO DISCLOSURE NO. 4:**

7 Etchart extracts and uses groundwater from the Upper Ventura Groundwater Basin for  
8 irrigation on their land for citrus, avocados, and other reasonable and beneficial uses of water.  
9 This property was purchased by their grandparents in 1942 and, to the best of their knowledge,  
10 citrus has been grown on the property since 1901.

11  
12 **DISCLOSURE NO. 5:**

13 The location of each well or other source through which the groundwater has been  
14 extracted.

26 Etchart owns four different parcels which have historically been supplied water from this  
27 alluvial well, all of which are within the Upper Ventura River Groundwater Area (UVRGA). The  
28 well is shared with a neighbor.

**DISCLOSURE NO. 7:**

Any claims for increased or future use of groundwater.

**RESPONSE TO DISCLOSURE NO. 7:**

Etchart anticipates that his future use of groundwater will increase by 30-40 Acre-Feet annually from their current use as a new orchard planting matures back to historical water and consumptive use levels. The Etchart property was damaged by the 2017 Thomas Fire.

Etchart asserts the maximum historical right to pump and consumptively use groundwater (whether dormant or currently unexercised, which is never lost, forfeited, or abandoned for any period of non-use) or due to any shift in future irrigated agriculture crop production.

Etchart reserves the right to supplement this initial disclosure with additional future uses.

**DISCLOSURE NO. 8:**

The quantity of any beneficial use of any alternative water use that the party claims as its use of groundwater under any applicable law, including, but not limited to, Section 1005.1, 1005.2, or 1005.4 of the Water Code.

**RESPONSE TO DISCLOSURE NO. 8:**

To the extent that Etchart has a riparian right to subsurface underflow that is “part and parcel” of the property, they reserve the right to any additional water use pursuant to Water Code Sections 1005.1, 1005.2, 1005.4, or other applicable law.

Etchart also asserts any quantity of water used as a metered customer of Casitas Municipal Water District (by any source of its own surface of groundwater right(s) of its own) as an alternative source that it might use on any of its property *in lieu of* or as a supplement to any right of use that it might otherwise use to a maximum reasonable and beneficial use for domestic potable uses.

1 **DISCLOSURE NO. 9:**

2 Identification of all surface water rights and contracts the party claims provides the basis  
3 for its water right claims in the comprehensive adjudication.

4 **RESPONSE TO DISCLOSURE NO. 9:**

5 Etchart asserts riparian surface rights adjacent to and riparian subsurface underflow rights  
6 beneath their Ventura River properties.

7 Etchart also asserts the annual quantity of water used as a metered customer of Casitas  
8 Municipal Water District which they might otherwise use *in lieu of* any separate right of use it  
9 has to either riparian surface water or overlying landowner groundwater.  
10

11 **DISCLOSURE NO. 10:**

12 The quantity of any replenishment of water to the basin that augmented the basin's native  
13 water supply, resulting from the intentional storage of imported or non-native water in the basin,  
14 managed recharge of surface water, or return flows resulting from the use of imported water or  
15 non-native water on lands overlying the basin by the party, or the party's representative or agent,  
16 during each of the 10 calendar years immediately preceding the filing of the Complaint.  
17

18 **RESPONSE TO DISCLOSURE NO. 10:**

19 Etchart does not currently import any non-native water, but reserves all rights to drill a  
20 deep well into the fractured bedrock beneath the alluvial soils of the groundwater basin, which  
21 would not be hydrologically connected to Ventura River surface or subsurface flows.

22 Etchart does not presently manage any recharge of surface water peak-flow into  
23 groundwater, but reserves the right to further appropriate water and store such waters for more  
24 than 30-days (pursuant to a Water Availability Analysis) and/or capture and store stormwater or  
25 rainwater.

26 Etchart reserves the ability to generate any combination of offsets or production  
27 forbearance or conserved water credits that might otherwise contribute to either onsite water  
28 supply resiliency and reliability or enhance stream flow.

1 **DISCLOSURE NO. 11:**

2 The names, addresses, telephone numbers, and email addresses of all persons possessing  
3 information that supports the party's disclosures.

28 **RESPONSE TO DISCLOSURE NO. 12:**

1 Etchart, by virtue of their status as an overlying landowner, holds overlying groundwater  
2 rights. Such rights are “part and parcel” of the fee interest. This property was purchased by their  
3 grandparents in 1942 and, to the best of their knowledge, citrus has been grown on the  
4 property since 1901.
