Under Evidence Code section 453, this Request for Judicial Notice is conditionally mandatory and must be granted if sufficient notice is given to an adverse party and if the court is furnished with sufficient information to enable it to take judicial notice of the matter. (*People v. Maxwell* (1978) 78 Cal.App.3d 124, 130.) By this request, Ventura gives the Court and all parties sufficient notice and information to enable the Court to take judicial notice of the documents attached hereto and referred to by their exhibit numbers.

Pursuant to Evidence Code section 452, subdivision (d), judicial notice may be taken of "Records of (1) any court of this state […]" As a result, this Court may take judicial notice of the attached **Exhibit Nos. 1-4** as records of this Court that are relevant to this Court's consideration of the motions for judgment on the pleadings. (E.g., *Lockley v. Law Office of Cantrell, Green, Pekich, Cruz & McCort* (2001) 91 Cal.App.4th 875 [court may in its discretion take judicial notice of any court record in the United States, including any orders, findings of facts and conclusions of law, and judgments within court records].)

In addition, pursuant to Evidence Code Section 452, subdivision (c), a court may take judicial notice of "[o]fficial acts of the legislative, executive, and judicial departments of the United States and of any state of the United States." Courts have taken judicial notice of a wide variety of administrative and executive records, reports, and acts under section 452(c). (See, e.g., *Pacific Merchant Shipping Assoc. v. Newsom* (2021) 67 Cal.App.5th 711, 736, fn. 4 [taking

judicial notice of legislative history of special statutes providing fast-track judicial review]; *Los Angeles Unified School Dist. v. Torres Construction Corp.* (2020) 57 Cal.App.5th 480 [taking judicial notice of legislative history of bill enacting job order contracting]; *Planning and Conservation League v. Department of Water Resources* (2000) 83 Cal.App.4th 892 [taking judicial notice of Bulletin 132s published by the Department of Water Resources]; *Baldwin v. County of Tehama* (1994) 31 Cal.Ap.4th 166, 178, fn. 8 [taking judicial notice of DWR Bulletin 160-74's definition of combined groundwater basins]; *Post v. Prati* (1979) 90 Cal.App.3d 626 [judicial notice taken of legislative committee reports and excerpts from testimony given at public hearings]; *Johnson Rancho County Water Dist. v. State Water Rights Board* (1965) 235 Cal.App.2d 863, 873 [taking judicial notice of DWR Bulletin 115 and its contents].) It is well-established that "[o]fficial acts include records, reports and orders of administrative agencies." (*Rodas v. Spiegel* (2000) 87 Cal.App.4th 513, 518.) As a result, this Court may take judicial notice of the attached **Exhibit Nos. 5-9** as official acts pursuant to Evidence Code Section 452(c). Once the official acts are judicially noticed, their existence and contents are established, and no further proof of their existence or contents is required.

For the foregoing reasons, Ventura respectfully requests that the Court take judicial notice of **Exhibits 1-9**.

Judge: Honorable William F. Highberger

NOTICE OF COMPLETION OF MAILING CODE OF CIVIL PROCEDURE, § 836(e)

Action Filed: Sept. 19, 2014
Trial Date: Not Set

TO ALL PARTIES AND TO THEIR ATTORNEYS OF RECORD:

PLEASE TAKE NOTICE that Defendant and Cross-Complainant CITY OF SAN BUENAVENTURA ("City"), by and through its counsel, Best Best & Krieger, LLP ("BBK"), BBK staff, and its notice vendor JND Legal Administration ("JND"), has completed the mailing and posting required by Code of Civil Procedure ("CCP") section 836(d). The City files this notice pursuant to CCP section 836(e).

I. STATUTORY REQUIREMENTS AND COMPLIANCE

CCP section 836(e) requires the plaintiff to file a notice of completion of mailing performed pursuant to CCP section 836(d). CCP section 836(d) provides:

> (d)(1) Following a court order approving the notice and form answer and authorizing service of landowners pursuant to this section, the plaintiff shall do all of the following:
>
> (A) Identify the assessor parcel numbers and physical addresses of all real property in the basin and the names and addresses of all holders of fee title to real property in the basin using the records of the assessor or assessors of the county or counties in which the basin to be adjudicated lies. The plaintiff shall provide the court and all parties with notice of its acquisition of, or sufficient access to, this information.
> (B) Mail, by registered mail or certified mail, return receipt requested, the notice, complaint, and form answer to all holders of fee title to real property in the basin. If the physical address of the real property differs from the address of the holder of fee title, the notice, complaint, and form answer shall be mailed by registered or certified mail, return receipt requested, to the physical address of the real property and the address of the holder of fee title.
> (C) If return receipt is not received for a parcel of real property, the plaintiff shall post a copy of the notice, complaint, and form answer in a conspicuous place on the real property.
> (D) Within 20 days of the court order, publish the notice at least once per week for four consecutive weeks in one or more newspapers of general circulation in each county overlying the basin in whole or in part.
>
> (2) Service pursuant to this subdivision is not required if the real property is owned by a person in a class of water users that are otherwise noticed in accordance with this chapter. If the owner is part of a class of water users proposed for certification, service is not required until the court acts on the proposal for certification.

The City has completed each of the required elements of CCP section 836(d), as set forth below:

1. CCP § 836(d)(1). This Court granted the City's Motion for Approval of Notice of Adjudication and Form Answer on July 20, 2020.

A. CCP § 836(d)(1)(A). On August 21, 2019, City obtained the assessor parcel numbers and physical addresses of all real property in the (1) Ojai Valley Groundwater Basin, (2) Upper Ojai Valley Groundwater Basin, (3) Upper Ventura River Groundwater Basin, and (4) Lower Ventura River Groundwater Basin ("Basins") from the Department of Water Resources ("DWR") and obtained the names and addresses of all holders of fee title to real property in the Basin using the records of the Ventura County Assessor's Office from Fidelity National Title Insurance Company. (CCP § 836(d)(1)(A); concurrently filed Declaration of Sarah Christopher Foley ("Foley Decl.") at ¶ 4.) A list of the assessor parcel numbers for real property overlying the Basins obtained from DWR is attached to the Foley Decl. as **Exhibit A**. (*Id.*) The City provided the Court and parties notice of its access to this required information in the joint status conference statement filed on October 7, 2019. (*Id.*) Additionally, on October 22, 2020, the City obtained from the Ventura County Tax Assessor updated ownership and mailing address information for the owners of real property overlying the Basins. (*Id.*)

B. CCP § 836(d)(1)(B). Through its notice vendor JND, City mailed by certified mail, return receipt requested, (1) the Court-approved Notice of Commencement of Groundwater Basin Adjudication, (2) City's Third Amended Cross-Complaint for Comprehensive Adjudication, and (3) Court-approved Form Answer (collectively referred to as the "Notice Packet") to all holders of fee title to real property in the Basin to which owners it was required to provide notice. (CCP § 836(d)(1)(B); Foley Decl. at ¶ 5; concurrently filed Declaration of Peter DeMers ("DeMers Decl.") at ¶¶ 4-6.) The Notice Packet was mailed to both the physical

address and the mailing address for each property, if those addresses were different. (*Id*.)

C. CCP § 836(d)(1)(C). For each parcel of real property for which a return receipt was not received,[1] JND posted a copy of the Notice Packet in a conspicuous place on the real property. (CCP § 836(d)(1)(C); Foley Decl. at ¶ 6; DeMers Decl. at ¶¶ 7, 8.) The posting process consisted of locating the relevant parcel of real property, using longitude and latitude coordinates, and either posting the Notice Packet to a conspicuous location by the front door, if there was a physical building, or attaching the Notice Packet to a dowel that was driven into the ground on the property in a conspicuous location, if the property was undeveloped. (DeMers Decl. at ¶¶ 7, 8.)

D. CCP § 836(d)(1)(D). The City caused the Notice of Commencement of Groundwater Basin Adjudication to be published in the Ventura County Star on the following days: December 16, 2019, December 23, 2019, December 30, 2019, and January 6, 2020 (four consecutive weeks). (CCP § 836(d)(1)(D); Foley Decl. at ¶ 7.) A copy of the proof of publication is attached to the Foley Decl. as **Exhibit B**.

2. CCP § 836(d)(2). Notice packets do not have to be mailed to real property owners who have been "otherwise noticed in according with this chapter." (See CCP § 836(d)(2).) Accordingly, before sending the Ventura County Assessor data file to JND, City analyzed the data and removed City-owned parcels, original cross-defendants, riparian landowner cross-defendants that the City has named in the Third Amended Cross-Complaint, and parcel numbers without associated ownership information, as well as all other persons and entities who have

[1] Approximately twenty notice recipients have informed BBK that while they did receive the notice packet, they did not personally sign return receipts. BBK staff confirmed that JND obtained USPS-provided return receipts for each recipient. BBK staff contacted USPS, which directed BBK staff to changes in return receipt signature policies in place during the pandemic. These policies are available at https://faq.usps.com/s/article/USPS-Coronavirus-Updates-for-Business-Customers and https://faq.usps.com/s/article/USPS-Coronavirus-Updates-for-Residential-Customers, and they authorize postal workers to minimize contact and sign return receipts to indicate that they have identified the customer to whom the item is being delivered, in lieu of obtaining an actual signature from the recipient. (Foley Decl. at ¶ 5.)

otherwise received notice of the adjudication including: the United States Attorney General; United States Bureau of Reclamation; United States Bureau of Land Management; the United States Forest Service; the California Office of the Attorney General for State of California; California State Water Resources Control Board; California Department of Water Resources; California Department of Fish and Wildlife; the City of Ojai; County of Santa Barbara; County of Ventura; Ojai Basin Groundwater Management Agency; and Upper Ventura River Groundwater Agency; all of which City sent Notices of Adjudication and its Third Amended Cross-Complaint via email and/or U.S. Mail on January 14, 2020, pursuant to CCP section 835. (Foley Decl. at ¶ 8.)

Accordingly, the City, as required by CCP 836(e), hereby provides notice to the Court and to all parties that it has completed all the notice requirements of CCP section 836(d).

II. CITY OUTREACH

In addition to the statutory requirements above, the City provided additional notice and outreach through a variety of public meetings, media, website postings, mailings and updates, as follows:

1. In January 2020, the City ran an Op Ed in the Ventura County Star giving notice of the 1st round of notices of adjudication in English and Spanish and created a public website with FAQs relating to the January 2, 2020 Third Amended Cross-Complaint. (Concurrently filed Declaration of Susan Rungren ("Rungren Decl.") at ¶ 2.)

2. On January 30, February 12, and February 13, 2020, the City held three public meetings in Ojai, Ventura, and Ojai View with a Spanish interpreter available. (Rungren Decl. at ¶ 3.)

3. On or around March 9, 2020, the City posted a website blog about a first round of postcards to inform the public about the latest updates and progress in the case, including the Court's decision to grant a six-month extension to allow property owners additional time to

decide whether or not to file a response. The postcards were mailed on or around March 9, 2020 to all those who received a summons or notice. (Rungren Decl. at ¶ 4.)

4. On or around July 8, 2020, the City mailed another postcard to all those who received a summons or notice and ran additional notices in the Ventura County Star, Ojai Valley News, and Vida (a bilingual publication) in the third and fourth weeks of July 2020. (Rungren Decl. at ¶ 5.)

5. On or around July 16, 2020, the City posted a website blog post about re-commencing notice and service processes, and prepared cover letters to send to all un-served cross-defendants and un-noticed landowners in July 2020 explaining why they were receiving service or notice packets and informing them where they could obtain additional information about the case. (Rungren Decl. at ¶ 6.)

6. On or around August 11, 2020, the City posted a website blog regarding re-commencement of the notice and services processes to all unserved cross-defendants and un-noticed landowners. (Rungren Decl. at ¶ 7.)

7. In August 2020, the City prepared additional cover letters to send to all un-served cross-defendants and un-noticed explaining why they were receiving service or notice packets and informing them where they could obtain additional information about the case. (Rungren Decl. at ¶ 8.)

8. In December 2020, the City prepared additional cover letters to send to all un-served cross-defendants and un-noticed landowners explaining why they were receiving service or notice packets and informing them where they could obtain additional information about the case. (Rungren Decl. at ¶ 9.)

9. On or around February 3, 2021, the City posted a website blog post regarding notice and service efforts. (Rungren Decl. at ¶ 10.)

10. On or around February 3, 2021, the City prepared another cover letter to send to all unserved cross-defendants explaining why they were receiving service or notice packets and informing them where they could obtain additional information about the case. (Rungren Decl. at ¶ 11.)

11. On or around March 15, 2021, the City prepared another cover letter to send to roe cross-defendants explaining why they were receiving service packets and informing them where they could obtain additional information about the case. (Rungren Decl. at ¶ 12.)

DECLARATION OF SARAH CHRISTOPHER FOLEY IN SUPPORT OF NOTICE OF COMPLETION OF MAILING CODE OF CIVIL PROCEDURE, § 836(e)

Action Filed: Sept. 19, 2014
Trial Date: Not Set

DECLARATION OF SARAH CHRISTOPHER FOLEY

I, Sarah Christopher Foley, declare as follows:

1. I am an attorney at law licensed to practice before all courts in the State of California. I am a partner with the law firm Best Best & Krieger, LLP ("BBK"), counsel of record for Defendant and Cross-Complainant, City of San Buenaventura ("City") in the above-captioned action. The following statements are based on my personal knowledge and/or information provided to me by BBK staff working under my direction, supervision, and control and employees of JND Legal Administration LLC ("JND") working under my direction, supervision, and control, which the City hired to assist with providing required notice to interested parties in the above-entitled action. If called upon to testify about the facts set forth below, I could and would do so competently.

2. On January 2, 2020, the City filed its Third Amended Cross-Complaint in this action ("Amended Cross-Complaint") commencing a comprehensive adjudication of the Ventura River Watershed, including its four groundwater basins, the Lower Ventura River Basin, the Upper Ventura River Basin, the Ojai Valley Basin and the Upper Ojai Valley Basin ("Basins"), (collectively the "Ventura River Watershed Adjudication"). The comprehensive adjudication statutes (Code of Civil Procedure sections 830-852) impose specific requirements regarding notice and service of the Amended Cross-Complaint.

3. Following a court order approving a notice and form answer and authorizing service of landowners, Code of Civil Procedure section 836(d)(1) requires the City to:

(A) Identify the assessor parcel numbers and physical addresses of all real property in the basin and the names and addresses of all holders of fee title to real property in the basin using the records of the assessor or assessors of the county or counties in which the basin to be adjudicated lies. The plaintiff shall provide the court and all parties with notice of its acquisition of, or sufficient access to, this information.

(B) Mail, by registered mail or certified mail, return receipt requested, the notice, complaint, and form answer to all holders of fee title to real property in the basin. If the physical address of the real property differs from the address of the holder of fee title, the notice,

complaint, and form answer shall be mailed by registered or certified mail, return receipt requested, to the physical address of the real property and the address of the holder of fee title.

(C) If return receipt is not received for a parcel of real property, the plaintiff shall post a copy of the notice, complaint, and form answer in a conspicuous place on the real property.

(D) Within 20 days of the court order, publish the notice at least once per week for four consecutive weeks in one or more newspapers of general circulation in each county overlying the basin in whole or in part

4. On August 21, 2019, BBK staff obtained the assessor parcel numbers and physical addresses of all real property in the (1) Ojai Valley Groundwater Basin, (2) Upper Ojai Valley Groundwater Basin, (3) Upper Ventura River Groundwater Basin, and (4) Lower Ventura River Groundwater Basin ("Basins") from the Department of Water Resources ("DWR") and obtained the names and addresses of all holders of fee title to real property in the Basin using the records of Fidelity National Title Insurance Company, which contains property owner names, most recent grant deeds, physical addresses of the real property, and owner mailing addresses obtained from the Ventura County Tax Assessor records. A list of the assessor parcel numbers for real property overlying the Basins obtained from DWR is attached hereto as **Exhibit A**. **The** City provided the Court and parties notice of its access to this required information in the joint status conference statement filed on October 7, 2019. Additionally, on October 22, 2020, the BBK staff obtained from the Ventura County Tax Assessor updated ownership and mailing address information for the owners of real property overlying the Basins.

5. BBK staff instructed JND to mail by certified mail, return receipt requested, (1) the Court-approved Notice of Commencement of Groundwater Basin Adjudication, (2) City's Third Amended Cross-Complaint for Comprehensive Adjudication, and (3) Court-approved Form Answer (collectively referred to as the "Notice Packet") to all holders of fee title to real property in the Basin to which it was required to provide notice. BBK staff further instructed JND to mail the Notice packet to both the physical address and the mailing address for each property, if those addresses were different. JND informed BBK staff that it performed mailings of the Notice Packet on several occasions: on or about January 6, 2020, September 3, 2020, and December 4,

2020. For further details on the mailings, please see Declaration of Peter DeMers in Support of Notice of Completion of Mailing Code of Civil Procedure, section 836(e). Approximately twenty notice recipients have informed BBK that while they did receive the notice packet, they did not personally sign return receipts. BBK staff confirmed that JND obtained USPS-provided return receipts for each recipient. BBK staff contacted USPS, which directed BBK staff to changes in return receipt signature policies in place during the pandemic. These policies are available at https://faq.usps.com/s/article/USPS-Coronavirus-Updates-for-Business-Customers and https://faq.usps.com/s/article/USPS-Coronavirus-Updates-for-Residential-Customers, and they authorize postal workers to minimize contact and sign return receipts to indicate that they have identified the customer to whom the item is being delivered, in lieu of obtaining an actual signature from the recipient.

6. For each parcel of real property for which a return receipt was not received, BBK staff instructed JND to post a copy of the Notice Packet in a conspicuous place on the real property. On February 21, 2021, JND confirmed to BBK staff via email that postings were completed.

7. BBK staff caused the Notice of Commencement of Groundwater Basin Adjudication to be published in Ventura County Star on the following days: December 16, 2019, December 23, 2019, December 30, 2019 and January 6, 2020 (four consecutive weeks). Attached hereto as **Exhibit B** is a true and correct copy of the proof of publication.

8. CONCURRENCE IN SENATE AMENDMENTS
AB 1390 (Alejo, et al.)
As Amended September 4, 2015
Majority vote

ASSEMBLY: 76-0 (May 26, 2015) SENATE: 40-0 (September 9, 2015)

Original Committee Reference: **W., P., & W.**

SUMMARY: Adds a new Chapter 7 to Title 10 of Part 2 of the Code of Civil Procedure (new CCP provisions) that establish methods and procedures for comprehensive groundwater adjudications.

The Senate amendments:

1) Require that comprehensive adjudications are conducted consistently with existing laws, including the following:

   a) Achievement of groundwater sustainability within the timeframes of the Sustainable Groundwater Management Act (SGMA).

   b) Federal laws regarding the determination of federal or tribal water rights, as applicable.

   c) Existing law determining and establishing the priority of unexercised groundwater rights.

   d) Other provisions of the Code of Civil Procedure to the extent they do not conflict with the new CCP provisions.

2) Allow a waiver of court fees and costs for eligible applicants with insufficient economic means, as specified, consistent with existing law.

3) Exempt specified groundwater rights actions that do not rise to the level of a comprehensive adjudication.

4) Allow joinder of persons who claim rights to divert and use water from interconnected surface water bodies or subterranean streams flowing through known and definite channels if the court finds such joinder is necessary for the fair and effective determination of the groundwater rights in a basin.

5) Allow a court to exempt parties extracting or diverting five acre-feet or less of water if those parties do not wish to participate in the adjudication and exempting them would not have a material effect on the groundwater rights of other parties.

6) Add specificity to how notification of the comprehensive adjudication shall be conducted and broaden the list of persons who shall receive notice of the comprehensive adjudication to include, for example, SGMA groundwater sustainability agencies (GSAs), persons from an interested parties list established under SGMA, California Native American tribes, and others, as specified.

7) Require, within 15 days of the court order approving both the notice for the adjudication and a form answer that can be used in response to the notice, that the plaintiff in the adjudication request names and addresses of persons reporting groundwater extractions to the State Water Resources Control Board (State Water Board) and any GSA in the basin.

8) Refine the entities allowed to intervene by adding the following that overlie a basin or a portion of the basin: a GSA, a city, county or both. In accordance with existing law allows a person to apply to intervene who has an interest in the matter in litigation, or in the success of either of the parties, or an interest against both.

9) Disqualify the judge of a superior court of a county that overlies the basin or any portion of the basin and allow the Judicial Council to assign a judge to preside in all proceedings for the comprehensive adjudication.

10) Consolidate, if appropriate, any action against a GSA in the basin with the comprehensive adjudication if the action concerns the adoption, substance, or implementation of the GSA's groundwater sustainability plan (GSP) or the GSA's compliance with SGMA timelines.

11) Refine procedures that take in to account actual or proposed groundwater basin boundary changes, either in response to boundary changes by the Department of Water Resources (DWR) or by the court directing a party, as specified, to submit a request for a change to DWR. Specifies DWR's basin boundary changes are subject to judicial review.

12) Refine service of process in a comprehensive adjudication.

13) Refine the initial disclosures that parties to an adjudication must share with one another to establish the scope and basis of their claims to groundwater, including any use of expert witnesses.

14) Refine the requirements for proposed stipulated judgments supported by more than 50% of the parties who are groundwater extractors in the basin or use the basin for groundwater storage and to be supported by groundwater extractors responsible for at least 75% of the groundwater extracted in the basin during the preceding five years before the filing of the complaint.

15) Make other technical and conforming changes.

16) Is operative only if SB 226 (Pavley) of the current legislative session is also enacted and becomes effective.

EXISTING LAW:

1) Expresses the state's regulatory and supervisory authority over all waters in the state, surface and underground, by declaring that all waters in the state are property of the people of the State, while recognizing that rights may be acquired to the use of water.

2) Establishes background principles that apply to all water diversion and use, including the Constitutional prohibition against waste, unreasonable use, unreasonable method of diversion or unreasonable method of use.

3) Allows a party with rights to extract and use water in a groundwater basin to initiate a lawsuit so the court can decide the groundwater rights of all parties overlying the basin and others who may export water out the basin.

4) Empowers the court to decide who the extractors are, how much groundwater those well owners can extract, and who will ensure that the basin is managed according to the court's decree (generally called a "watermaster"), including periodically reporting to the court.

5) Requires DWR to prioritize California's groundwater basins in order to focus state resources. The basins are prioritized as either high, medium, low, or very low based on a combination of factors including, but not limited to, overlying population, level of dependence for urban and agricultural water supplies, and impacts on the groundwater from overdraft, subsidence, saline water intrusion, and water quality degradation.

6) Allows a local agency to file a request with DWR to revise groundwater basin boundaries.

7) Requires, by June 30, 2017, that local agencies form one or more GSAs in all high and medium priority basins subject to SGMA for the purpose of developing and adopting GSPs or submit existing groundwater management plans or adjudications that DWR determines are functionally equivalent to SGMA GSPs.

8) Requires, by January 31, 2020, that GSAs in all critically overdrafted high and medium priority basins develop and adopt GSPs that provide for the sustainable management of the groundwater basin, as defined.

9) Requires, by January 31, 2022, that GSAs in all other high and medium priority basins subject to SGMA develop and adopt GSPs.

10) Allows the State Water Board to impose an interim plan for management of a groundwater basin if no GSA is formed by the deadline, no GSP is adopted by the appropriate deadline, or a GSP is adopted which DWR deems insufficient and where the basin is in a chronic condition of overdraft or in a condition where groundwater pumping is causing a significant depletion of interconnected surface waters.

FISCAL EFFECT: According to the Senate Appropriations Committee, there will be an unknown reduction in costs to the General Fund for the courts.

COMMENTS: This bill creates a new chapter in the Code of Civil Procedure that will streamline comprehensive groundwater adjudications. This bill has also been carefully crafted to take into consideration how comprehensive adjudications will be conducted in basins subject to SGMA. For that reason, this bill and SB 226 are contingent on the enactment of each other. This bill sets out the general provisions for streamlining groundwater adjudications that would be applicable to any basin. SB 226 relies on the new CCP provisions created by this bill but then sets out additional standards and procedures for the court to apply in basins that are subject to SGMA in order to ensure minimal interference with GSP development and maintain consistency with SGMA objectives.

It is undisputable that groundwater adjudications are lengthy, complicated, and expensive. An adjudication is when multiple parties who withdraw water from the same aquifer ask a court to hear competing arguments and better define the rights that various entities have to use the

groundwater resources. Through the adjudication the court can assign specific water rights to water users and can compel the cooperation of those who might otherwise refuse to limit their groundwater pumping. Even after a decree is entered, the court retains continuing jurisdiction and usually appoints a watermaster to ensure that pumping conforms to the limits defined by the adjudication.

Because there is no state mandate to report groundwater withdrawals it is difficult to determine who should be legally noticed of the court action. In addition there are usually technical disagreements among parties, including as to the historic groundwater use which could affect the scope of one's rights. The Antelope Valley groundwater basin in Los Angeles and Kern Counties is illustrative: The adjudication has been sitting in the trial court for 15 years; parties include cities, farmers, the federal government, and a class of 85,000 property owners who hold groundwater rights but who have never pumped water; there are over 9,000 docket entries so far; and, more than 100 lawyers involved. Similarly, the Santa Maria groundwater basin in Santa Barbara and San Luis Obispo counties took 15 years, involved thousands of parties, cost tens of millions of dollars, and still might not be completely resolved.

The author states that when Governor Brown signed SGMA last year he acknowledged the need to develop a streamlined groundwater adjudication process. The author adds that this bill is meant to address the time sinks that occur in current groundwater adjudications by clarifying the processes that must be followed. The author states that streamlining adjudications will ease the burden on the courts, provide the parties with the most efficient resolution possible, protect individual rights, all while appropriately integrating adjudication actions with SGMA. Other supporters state that this bill will address particular challenges that exist in groundwater adjudications including determination of venue, identification of basin boundaries, disqualification of judges, notice and service of parties, discovery and the ability of the parties to reach settlement. Supporters add this bill will do that without impacting due process or changing California water law.

Most former opposition to this bill was submitted when this bill and SB 226 were competing measures. Since that time the authors and many of the supporters and opponents of both bills have been working together to develop one integrated, contingently-enacted proposal that places the procedural streamlining processes in this bill and the SGMA-specific language in SB 226. Following the latest amendments to this bill many of the prior opponents have moved to support positions.

No opposition to this bill was received. However, following the latest set of amendments, concerns were raised by parties that questioned whether this bill could impermissibly affect unexercised water rights (future claims by people who own land overlying the basin but who do not currently pump groundwater) or inappropriately bring surface water rights into the groundwater arena. However, such concerns ignore that current law already sets forth the ability of the court to determine water right priorities; and, that where groundwater and surface water are interconnected, the "common source" doctrine applies, integrating water rights and applying priorities without regard to whether the diversion is from surface or groundwater. The author states that the reason for including provisions acknowledging existing law is to remove some of the unnecessary uncertainty that has been a major obstacle to a speedy and fair resolution of groundwater claims.

In particular, concerns were raised that this bill states a court may consider applying the principles established in the 1979 California Supreme Court case *In re Waters of Long Valley Creek Stream System* (*Long Valley*). That is existing law and this bill does not change it. *Long Valley* is important to reference however as it established a precedent that all water rights, including unexercised water rights, could be given a priority based on the facts of the situation and that addressing all rights would bring clarity to water rights holders and foster more beneficial and efficient uses of the State's waters as mandated by the California Constitution. In addition, the court reasoned that addressing all water rights could eliminate the uncertainty that leads to recurrent, costly, and piecemeal litigation. This bill includes detailed procedures to ensure that a comprehensive adjudication is truly comprehensive, with adequate notice and due process protections for all groundwater extractors and overlying landowners. With those procedural protections, the application of *Long Valley* could help provide water rights holders the security that the water rights recognized in the decree will be protected, instead of losing out to claims that were not included or quantified.

In addition to SB 226, there are two other major bills this session concerning groundwater. SB 13 (Pavley), Chapter 255, Statutes of 2015, makes several technical cleanup changes to SGMA and its related statutory sections. AB 617 (Perea) of the current legislative session amends SGMA to allow public private partnerships, provide an appeals process to the State Water Board for public agencies if state entities agencies are not working cooperatively to implement the GSP, and to allow groundwater sustainability planning to be incorporated into an Integrated Regional Water Management Plan. AB 617 is pending in the Senate.

SUBJECT

Sustainable Groundwater Management Act: Groundwater Rights

DESCRIPTION

This bill would establish special procedures for courts use in determining rights to groundwater under the Sustainable Groundwater Management Act (SGMA). This bill would specify procedures for, among other things, making determinations of rights to groundwater under SGMA, for serving notice to unknown parties, for providing initial disclosure of discoverable information, including information pertaining to expert witnesses, and for intervention by the Department of Water Resources and the Department of Fish and Wildlife.

BACKGROUND

Groundwater adjudications -- civil cases to determine rights to groundwater in a particular area -- are among the lengthiest court proceedings in California. These cases typically involve hundreds if not thousands of parties, often with conflicting claims over the right to extract groundwater. According to one commenter:

> There is a joke among lawyers that working on one groundwater adjudication can make your career. The laborious court process settles fights over rights to the state's increasingly overtapped aquifers and sets out long-term management plans for them. And while they are crucial to resolving water rights disputes, getting there is not easy.
>
> Case in point is an adjudication of the Antelope Valley groundwater basin, which has been sitting in a trial court for 15 years. The case is enormous, involving a multitude of public agencies and landowners large and small who hold groundwater pumping rights. Parties include cities, farmers, the federal government, and a class of 85,000 property owners who hold groundwater rights but who have never pumped water. There are 9,404 docket entries in the case so far and more than 100 lawyers listed on the case . . .

> There are several reasons these cases take so long, and attorneys agree some parts of the process could be improved to speed them up. Finding a way to expedite the service process is one. Identifying all the parties and getting them personally served is "a very lengthy and expensive and not very reliable process," said Thomas S. Bunn, with Lagerlof, Senecal, Gosney & Kruse LLP, who is involved in the Antelope Valley adjudication. He said it took six years to serve the parties in that case.
>
> Discovery is also a real headache because a lot of time is spent trying to figure out the basic information in the case - who is pumping, how much they are pumping, how much water they are claiming a right to and how they use the water . . . Requiring litigants to provide that information up front could cut a big chunk off time and expense . . . (Fiona Smith, *State Looking to Speed Groundwater Lawsuits*, Daily Journal (Oct. 29, 2014).)

This bill would create special procedures for adjudicating rights to water in groundwater basins under the Sustainable Groundwater Management Act (Wat. Code Sec. 10720 et seq.). It would provide that in making determinations of rights to groundwater, a court shall avoid undesirable results, as defined. This bill would also provide special procedures for conducting initial discovery, for determining the boundaries of a groundwater basin, for serving affected parties, and for allowing the Departments of Water Resources and Fish and Wildlife to intervene in an adjudication.

CHANGES TO EXISTING LAW

Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan by January 31, 2022, except as specified. (Wat. Code Sec. 10720 et seq.)

Existing law defines "undesirable result" to mean one or more of the following effects caused by groundwater conditions occurring throughout a groundwater basin:

- chronic lowering of groundwater levels indicating a significant and unreasonable depletion of supply if continued over the planning and implementation horizon, as specified;
- significant and unreasonable reduction of groundwater storage;
- significant and unreasonable seawater intrusion;
- significant and unreasonable degraded water quality, including the migration of contaminant plumes that impair water supplies;
- significant and unreasonable land subsidence that substantially interferes with surface land uses; or
- depletions of interconnected surface water that have significant and unreasonable adverse impacts on beneficial uses of the surface water. (Wat. Code Sec. 10721(w).)

This bill would find and declare that it establishes special procedures for courts to use in determining rights to groundwater, and that unless otherwise provided, a court shall determine rights to groundwater using the procedures codified in the Code of Civil Procedure.

This bill would provide that in making its determination of rights to groundwater, a court shall avoid an undesirable result as defined in Section 10721 of the Water Code.

This bill would provide that an action to determine water rights shall be deemed provisionally complex within the meaning provided in Rule 3.400 of Title 3 of the California Rules of Court.

This bill would state that Section 389 of the Code of Civil Procedure (dismissal for failure to join an indispensable party) shall not apply to any failure to join an Indian tribe or the United States to an action or proceeding.

This bill would state that upon timely motion, a court shall permit the Department of Water Resources or the Department of Fish and Wildlife, or both, to intervene in an action or proceeding if the movant claims an interest relating to the action or proceeding and is so situated that disposing of the action or proceeding may, as a practical matter, impair or impede the movant's ability to protect its interest.

This bill provides that in addition to other requirements for the service of a summons by publication, the publication shall describe the groundwater basin that is the subject of the action, and shall provide the Internet address for a map depicting the basin and any other identifying information that the court deems appropriate.

This bill would state, except as otherwise stipulated or ordered by the court, a party shall, without awaiting a discovery request, provide to the other parties all of the following:

- the name and, if known, the address and telephone number of each individual likely to have discoverable information, along with the subjects of that information, who the disclosing party may use to support its claims or defenses, unless the use would be solely for impeachment;
- a copy or a description by category and location, of all documents, electronically stored information, and tangible things that the disclosing party has in its possession, custody, or control that it may use to support its claims or defenses, unless the use would be solely for impeachment; and
- a quantification of claims to water in the basin by the disclosing party, and access to any documents or other evidentiary material, unless privileged or protected from disclosure, on which each claim is based, including materials bearing on the nature and extent of those claims.

This bill would provide that a party shall make all required disclosures at or within 14 days after the parties' initial case management conference unless a different time is set

by stipulation or court order, or unless a party objects during the conference that initial disclosures are not appropriate in this action and states the objection in a proposed discovery plan. This bill states that in ruling on the objection, the court shall determine what disclosures, if any, are to be made and shall set the time for disclosure.

This bill would provide that a party that is first served or otherwise joined after the initial case management conference shall make its initial disclosures within 30 days after being served or joined, unless a different time is set by stipulation or court order.

This bill would provide that a party shall make its initial disclosures based on the information then reasonably available to it, and that a party is not excused from making its disclosures because it has not fully investigated the case or because it challenges the sufficiency of another party's disclosures or because another party has not made its disclosures.

This bill would state that in addition to the other required disclosures, a party shall disclose to the other parties the identity of any expert witness it may use at trial to present evidence.

This bill would provide that, unless otherwise stipulated or ordered by the court, the disclosures pertaining to expert witnesses shall be accompanied by a written report, prepared and signed by the expert witness, if the expert witness is retained or specially employed to provide expert testimony in the case or whose duties as the party's employee regularly involve giving expert testimony. This bill would specify that the report shall contain all of the following:

- a complete statement of all opinions the expert witness will express and the basis and reasons for them;
- the facts or data considered by the expert witness in forming his or her opinions;
- any exhibits that will be used to summarize or support the opinions of the expert witness;
- the expert witness' qualifications, including a list of all publications authored in the previous 10 years;
- a list of all other cases in which, during the previous four years, the expert witness testified as an expert at trial or by deposition; and
- a statement of the compensation to be paid to the expert witness for the study and testimony in the case.

This bill would also provide that, unless otherwise stipulated or ordered by the court, if the expert witness is not required to provide a written report, the disclosure shall state both of the following:

- the subject matter on which the expert witness is expected to present evidence; and
- a summary of the facts and opinions to which the expert witness is expected to testify.

This bill would state that a party shall make the required disclosures at the times and in the sequence that the court orders, and that absent a stipulation or a court order, the disclosures shall be made at either of the following times:

- at least 90 days before the date set for trial or for the case to be ready for trial; or
- if the evidence is intended solely to contradict or rebut evidence on the same subject matter identified by another party, within 30 days after the other party's disclosure.

COMMENT

1. Stated need for the bill

According to the author:

> In California, the method for determining groundwater rights is through the common law process of groundwater adjudication. Given the different kinds of groundwater rights and the relationships between them, coming to a determination is a complex task, often taking well over a decade of judicial activity – the Antelope Valley adjudication has taken 15 years and counting . . .
>
> On November 20, 2014, the Senate Natural Resources and Water Committee held an informational hearing, titled "Resolving Disputes Regarding Groundwater Rights: Why Does It Take So Long and What Might Be Done to Accelerate the Process?" At that hearing, witnesses identified a number of items that cause unnecessary delay. These included issues of basin boundaries, notice and service, discovery, and expert testimony. SB 226 addresses these issues as follows:
>
> - Basin Boundaries – boundaries shall be as identified in [Department of Water Resources'] Bulletin 118, unless modified as provided in [Sustainable Groundwater Management Act].
> - Notice & Service – notice to known parties is as provided in the Code of Civil Procedure (CCP). Unknown parties would be served by publication.
> - Discovery – Copies the Federal procedures, which require disclosure of specific items without awaiting a discovery request.
> - Expert Witness – Copies the Federal procedures, which require an expert witness to provide a written report on opinions the witness will express and the basis and reasons for them.
>
> With these changes, SB 226 will reduce needless delays while still protecting due process rights.

2. Special Procedures to Accelerate Adjudications

This bill would establish special procedural rules under the Sustainable Groundwater Management Act (SGMA) for determining rights to groundwater in an effort to accelerate groundwater adjudication proceedings. Drawn from the Federal Rules of Civil Procedure, this bill would set new requirements for making initial disclosures of

discoverable evidence and for disclosing information about a party's expert witnesses, for allowing the Department of Water Resources and the Department of Fish and Wildlife to intervene in groundwater adjudications, and for serving both known and unknown parties. This bill would also set specific standards by which groundwater cases shall be adjudicated.

a. Non-joinder of Parties

This bill would provide that Section 389 of the Code of Civil Procedure shall not apply to any failure to join an Indian tribe or the United States to a groundwater adjudication under SGMA. Section 389 provides that a person who is subject to service of process and whose joinder will not deprive the court of jurisdiction over the subject matter of the action shall be joined as a party in the action if (1) in his absence complete relief cannot be accorded among those already parties or (2) he claims an interest relating to the subject of the action and is so situated that the disposition of the action in his absence may (i) as a practical matter impair or impede his ability to protect that interest or (ii) leave any of the persons already parties subject to a substantial risk of incurring double, multiple, or otherwise inconsistent obligations by reason of his claimed interest. If such a person cannot be made a party, Section 389 empowers the court to dismiss the action if it determines the non-joined party is indispensable to resolution of the matter. In California, groundwater basins are shared by a multitude of people and entities, including federally recognized Indian tribes and instrumentalities of the United States. Since these entities might have a claim or interest in a groundwater basin, and since California may, in some instances, be unable to compel them to become a party in a groundwater adjudication, this provision of the bill ensures that the non-joinder of those parties would not result in the dismissal of the adjudication.

b. Intervention

This bill provides that the Department of Water Resources and the Department of Fish and Wildlife shall have intervention by right into a groundwater adjudication under SGMA if they claim an interest in the proceeding and that the proceeding may, as a practical matter, impair or impede their ability to protect that interest. As managers of natural resources dependent on groundwater and interconnected surface water, the adjudication of groundwater basins may impact the interests of these Departments.

Several agricultural stakeholders writing in opposition state that this provision "would fundamentally change water rights in California." They state:

> Under current law, groundwater rights are an overlying right, an appropriative right or a prescriptive right. By allowing the above referenced agencies to intervene in an adjudication action, the court would be forced to examine the

impairment of the agency's claimed interest and potentially grant the agency a groundwater right not otherwise entitled to under established law.

Staff notes that merely allowing these Departments to join as parties to an adjudication would not lead to the recognition of a groundwater right. Just like any other party, these Departments would have to establish their claim to groundwater in the basin under applicable law. Further, it would be premature to conclude as a matter of law that these Departments could not claim a right to groundwater in basins undergoing adjudication, particularly in light of recent court decisions recognizing that certain quantities of groundwater may be subject to the public trust doctrine. (*See Environmental Law Foundation et al. v. State Water Resources Control Board*, 34-2010-800000583 (Sacramento Superior Court).)

c. Notice and Service

This bill would provide that publication to unknown defendants -- those who may have a claim to groundwater extraction in a basin -- shall be served by publication, and that the publication shall describe the groundwater basin that is the subject of the action, and shall provide the Internet address for a map depicting the basin and any other identifying information that the court deems appropriate. Under existing law, a summons is generally served to defendants in an action by personal delivery of a copy of the summons and of the complaint to the person to be served. (Code Civ. Proc. Sec. 415.10.) If a court determines that a party to be served cannot with reasonable diligence be served by personal service or in another manner specified in the Code of Civil Procedure, then it may order service by publication. (Code Civ. Proc. Sec. 415.10.) This method of service is useful for giving unknown parties notice of a proceeding which they may have an interest in. Service by publication is generally accomplished by publishing a summons in a named newspaper, published in this state, that is most likely to give actual notice to the party to be served. This bill would enhance the notice given to unknown defendants served by publication by requiring additional information about the groundwater basin undergoing adjudication, thereby better enabling readers of the publication to determine if they have an interest in the adjudication.

d. Discovery and Expert Witnesses

This bill would also require all parties to disclose through discovery specific limited information about their claims and defenses in a groundwater adjudication, as well as information about expert witnesses that will provide testimony on their behalf, without waiting for a discovery order from the court. As noted in the Background above, the discovery process in groundwater adjudications leads to significant delays as parties wait for each other to submit information about their claimed rights to groundwater. The process required by this bill, drawn from Rule 26 of the Federal Rules of Civil Procedure, would require all parties to provide basic information about their claimed interest in the adjudication and about the expert

witnesses they plan to have testify on their behalf very early in the proceedings. The provision of this information at the beginning stages of an adjudication will allow the court and the parties to more quickly frame the issues to be addressed, and should reduce delays associated with parties strategically waiting to produce discoverable evidence.

3. Avoiding Undesirable Results

In addition to the procedural changes noted in Comment 2, this bill would specify that in making its determination of rights to groundwater, a court shall avoid an undesirable result as defined in SGMA. In general, an undesirable result under SGMA is one that results in any of the following: the chronic lowering of groundwater levels; significant and unreasonable reduction of groundwater storage; significant and unreasonable seawater intrusion; significant and unreasonable degraded water quality; significant and unreasonable land subsidence that substantially interferes with surface land uses; or depletions of interconnected surface water that have significant and unreasonable adverse impacts on beneficial uses of surface water. (Wat. Code Sec. 10721(w).)

This adjudicatory standard differs somewhat from that used in common law groundwater adjudications. In a common law adjudication, groundwater basins are managed according to the concept of "safe yield," and overlying appropriators are limited when total basin groundwater extraction exceeds safe yield, leading to basin overdraft. The safe yield of a groundwater basin is "the maximum amount of water that could be extracted annually, year after year, without eventually depleting the underground basin. Safe yield is generally calculated as the net of inflows less subsurface and surface outflows." (*City of Santa Maria v. Adam* (Cal.App.6th Dist. 2012), 211 Cal.App.4th 266, 279.)

The author states that this bill's focus on "sustainable yield" is to ensure that any decision rendered through the procedures established through the bill would be consistent with the goals and objectives of SGMA, which include providing for the sustainable management of groundwater basins. (Wat. Code Sec. 10720.1(a).)

4. Impact to Common Law Adjudication

The California Supreme Court has held that "[i]t is settled that the law of this state includes the common law as well as the Constitution and the codes. The code establishes the law of this state respecting the subjects to which it relates; but this does not mean that there is no law with respect to such subjects except that embodied in the code. Where the code is silent, the common law governs." *Rojo v. Kliger* (1990) 52 Cal.3d 65, 74 (citations and internal quotation marks omitted).) Further, "[t]here is a presumption a statute does not, by implication, repeal the common law." (*Id.*, citing 3 Sutherland, *Statutory Construction* (4th ed. 1986) Sec. 61.03, p. 95 ["The repeal of a common law rule may be evidenced by various other . . . aids of statutory interpretation."].)

Through this bill, the author intends to establish a process to adjudicate groundwater rights under SGMA that operates parallel to California's existing common law groundwater adjudication process. To ensure that this bill does not preclude parties from using the existing common law adjudication process, the author offers the following amendment:

Author's Amendment:

On page 8, between lines 23 and 24, insert "(c) Nothing contained in this chapter shall be deemed to repeal or preclude an action to determine rights to groundwater in accordance with the common law."

5. Other Stakeholder Concerns

Clean Water Action and Community Water Center state, "we appreciate the need to streamline the adjudication process and are encouraged by the bill so far. However, it is imperative that the rights of underrepresented and disadvantaged communities . . . are adequately represented in the process." To better represent these communities and enhance their ability to participate in adjudications under this bill, these stakeholders suggest that the bill be amended to allow for the awarding of attorney's fees and costs to those beneficial users who can prove significant financial hardship; to require notices related to an adjudication to be translated in any and all languages spoken by 10 percent or more of the population residing in a basin, as well as any other languages as appropriate; and to expand the bill's intervention by right provision to authorize intervention by the State Water Board and local groundwater sustainability agencies.

Related Pending Legislation: AB 1390 (Alejo, 2015) would establish special procedures for adjudication actions filed in superior court to determine the rights to extract groundwater within a basin or store water from a basin. Among other things, this bill would require each party to make specified initial disclosures within 60 days after an initial case management conference, and would authorize the court to appoint a special

master whose duties could include initiating a technical committee to conduct joint factfinding regarding the basin. This bill is pending in the Assembly Judiciary Committee.
