Type of Diversion	No Diversion			
Comments	Due to drought conditions in 2016 flows in the Ventura River are low, and the river flow is not near Ventura Water's surface water diversion intake. In addition, ability to divert has been limited since 2005, as repairs to storm damaged facilities have not been completed because of unresolved permitting issues with National Marine Fisheries over endangered Southern California Steelhead. The City claims 72,397 acre-feet per year of pre-1914 appropriative water rights in the Ventura River system. This year, the City is reporting			

associated subsurface extractions at its Intake Subsurface (G561025), Nye 7 (G561269), Nye 8 (G561270), and Nye 11 (G561854), and no extraction from Nye 2 (G561853).

--------------------------	--

Are you now employing water conservation efforts?	Yes
a. Describe any water conservation efforts you have initiated	The City of Ventura has issued a Stage 3 Water Shortage Emergency in 2014 and has adopted a water waste ordinance to institute outdoor watering restrictions and other water waste restrictions to achieve a 20% water use reduction goal as well as implementation of a 4 tiered rate structure. The City also has a customer assistance program where customers may acquire free water conservation aids such as low-flow showerheads, kitchen faucet aerators, leak detection kits, and toilet flappers. The City has also instituted a Water Conservation Survey Program where customers can receive a free survey to help them reduce water use indoors and out. The City has also developed a Water Efficiency Incentive program for customers to apply for funding to perform turf removal or irrigation efficiency at their property. In addition the City is a signatory to the CA Urban Water Conservation Council (CUWCC) and has submitted an Urban Water Management Plan every 5-years to the State since 1985.
b. Amount of water conserved	

I have data to support the above surface water use reductions due to conservation efforts.
