

[SUMMARY OF FINAL SUBMITTED VERSION]**ANNUAL NOTICE OF GROUNDWATER EXTRACTION AND DIVERSION FOR 2015**

Primary Owner: CITY OF SAN BUENAVENTURA

Recordation Number: G561269

Date Submitted: 2016-06-30

1. Reporting to a Local Agency	
Local Agency	Submitter does not report to a local agency.
2. Type(s) of Diversion	
a. Groundwater Extraction	<= 25 acre-feet
b. Surface Diversion	None
3. Ownership Type of Owner(s) on Record	
Ownership Type	Owner of land on which well or point of diversion is located, and is extracting/diverting water
4. Amount of Groundwater Extracted During Calendar Year	
Amount Extracted	0.09 Acre-Feet
5. Amount of Surface Water Diverted or Used	
Not applicable; Surface Diversion was not chosen as a type of diversion.	
5d. Maximum Rate of Surface Water Diversion	
Not applicable; Surface Diversion was not chosen as a type of diversion.	
6. Method of Measurement	
Method of Measurement	Water Meter
7. Type(s) of Use	
Municipal	112412
8. Action Requested	
Action Requested	Record my water use
9. Supplemental Information	
Supplemental Information	Water production has greatly decreased due to drought conditions. The City continues to implement best Management Practices to support groundwater sustainability. The City has submitted and Urban water Management Plan every 5 years to the state since 1985. Water conservation efforts continue as the City has issued a Stage 3 Water Shortage Emergency and has adopted a Water waste Ordinance to institute outdoor watering restrictions and other water waste restrictions to achieve a 20% water use reduction; as well as implementation of a 4 tiered rate structure. The City claims 72,397 acre-feet per year of pre-1914 appropriative water rights in the Ventura River system. The following is a list of the City's collective Ventura River reporting for this year: Intake Surface (S010335), Intake Subsurface (G561025), Nye 7 (G561269), Nye 8 (G561270), Nye 11 (G561854), and Nye 2 (G561853).

[SUMMARY OF FINAL SUBMITTED VERSION]

SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE FOR 2015

Primary Owner: CITY OF SAN BUENAVENTURA

Statement Number: S010335

Date Submitted: 2016-06-30

1. Water is used under	Pre-1914 Claim
2. Year diversion commenced	1870

3-4. Maximum Rate of Diversion for each Month and Amount of Water Diverted and Used

Month	Rate of diversion (GPD)	Amount directly diverted (Acre-Feet)	Amount diverted or collected to storage (Acre-Feet)	Amount beneficially used (Acre-Feet)
January	0	0	0	0
February	0	0	0	0
March	0	0	0	0
April	0	0	0	0
May	0	0	0	0
June	0	0	0	0
July	0	0	0	0
August	0	0	0	0
September	0	0	0	0
October	0	0	0	0
November	0	0	0	0
December	0	0	0	0
Total		0	0	0
Type of Diversion	Diversion to Storage Only			
Comments	Due to drought conditions flows in the Ventura River are low, and the river flow is not near Ventura Water's surface water diversion intake. In addition, ability to divert has been limited since 2005, as repairs to storm damaged facilities have not been completed because of unresolved permitting issues with National Marine Fisheries over endangered Southern California Steelhead. The City claims 72,397 acre-feet per year of pre-1914 appropriative water rights in the Ventura River system. This year, the City is reporting associated subsurface extractions at its Intake Subsurface (G561025), Nye 7 (G561269), Nye 8 (G561270), and Nye 11 (G561854), and no extraction from Nye 2 (G561853).			

Water Transfers

8e. Water transfered	No
8f. Quantity transfered (Acre-Feet)	
8g. Dates which transfer occurred	/ to /
8h. Transfer approved by	

Water Supply Contracts

8i. Water supply contract	No
8j. Contract with	

8k. Other provider	
8l. Contract number	
8m. Source from which contract water was diverted	
8n. Point of diversion same as identified water right	
8o. Amount (Acre-Feet) authorized to divert under this contract	
8p. Amount (Acre-Feet) authorized to be diverted in 2015	
8q. Amount (Acre-Feet) projected for 2016	
8r. Exchange or settlement of prior rights	
8s. All monthly reported diversion claimed under the prior rights	
8t. Amount (Acre-Feet) of reported diversion solely under contract	

5. Water Diversion Measurement

a. Measurement	Water directly diverted and/or diverted to storage was measured
b. Types of measuring devices used	Propeller Meter
c. Additional technology used	Flow Totalizer Telemetry
Description of additional technology used	
d. Who installed your measuring device(s)	Representative who is American Water Works Association (AWWA)-certified
e. Make, model number, and last calibration date of your measuring device(s)	
f. Why direct measurement using a device listed in Section 1 is "not locally cost effective"	
Explanation of why use of devices and technologies listed in Section 1 are "not locally cost effective"	
Method(s) used as an alternative to direct measurement	
g. Explanation of method(s) used as an alternative to direct measurement	

6. Purpose of Use

Municipal	112412
-----------	--------

7. Changes in Method of Diversion

Ability to divert has been limited since 2005 as repairs to storm damaged facilities have not been completed because of unresolved permitting issues with national Marine Fisheries over endangered Southern California Steelhead

8. Conservation of Water

a. Are you now employing water conservation efforts?	Yes
Describe any water conservation efforts you have initiated	In 2001, the City became a signatory to the MOU regarding water conservation in CA and a member of the CA Urban Water Conservation Council (CUWCC), establishing a firm commitment to the implementation of Best Management Practices and Demand Management Measures. As a signatory the City implements a specific set of locally cost-effective conservation practices and reports bi-annually on the City's conservation efforts to the CUWCC. In addition, the City has submitted an Urban Water Management Plan every 5-years to the State since 1985. Furthermore, the City of Ventura has issued a Stage 3 Water Shortage Emergency

	in 2014 and has adopted a Water Waste Ordinance to institute outdoor watering restrictions and other water waste restrictions to achieve a 20% water use reduction goal as well as implementation of a 4 tiered rate structure. The City also has a customer assistance program where customers may acquire free water conservation aids such as low-flow showerheads, kitchen faucet aerators, leak detection kits, and toilet flappers. The City has also instituted a Water Conservation Survey Program where customers can receive a free survey to help them reduce water use indoors and out. The City has also developed a Water Efficiency Incentive program for customers to apply for funding to perform turf removal or irrigation efficiency at their property.
Amount of water conserved	Acre-Feet
b. I have data to support the above surface water use reductions due to conservation efforts.	No

9. Water Quality and Wastewater Reclamation

a.	Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility, or water polluted by waste to a degree which unreasonably affects such water for other beneficial causes?	Yes
	Amount of reduced diversion	606.47 Acre-Feet
	Type of substitute water supply	Reclaimed
b.	Amount of substitute water supply used	606.47 Acre-Feet
	I have data to support the above surface water use reductions due to the use of a substitute water supply	Yes

10. Conjunctive Use of Surface Water and Groundwater

a.	Are you now using groundwater in lieu of surface water?	Yes
	Amount of groundwater used	1298.39 Acre-Feet
b.	I have data to support the above surface water use reductions due to the use of groundwater.	Yes

11a. Additional Remarks

The City claims 72,397 acre-feet per year of pre-1914 appropriative water rights in the Ventura River system. This year, the City is reporting associated subsurface extractions at its Intake Subsurface (G561025), Nye 7 (G561269), Nye 8 (G561270), and Nye 11 (G561854), and no extraction from Nye 2 (G561853).
